

UOVO:NYC

Our flagship facility is the first purpose-built art storage facility in New York City and has been designed to provide both the highest quality amenities for our clients and maximum protection against natural disasters.

Features

- 280,000 square feet of fully climate-controlled storage
- Private rooms: Our in-house space planners can design a fully customized and maximally efficient private room to meet the needs of any collection.
- Concierge storage: Our concierge storage has been optimized to store works ranging from a single painting to monumental sculpture and is exclusively accessed and managed by our expert art technicians.
- 4 fully enclosed loading docks and 5 covered loading docks capable of accommodating 53-foot tractor trailers
- 6 viewing rooms and on-site conservation studio
- Private meeting rooms, work spaces, and client café
- 24/7 UL AA rated security system reporting directly to a central station
- Digital inventory system with barcode scanners and iPhone integration for seamless location retrieval
- Two freight elevators each capable of carrying 9 tons and three passenger elevators
- Two emergency generators
- Core services provided by an expert technical team including installation, fine art transportation, packing and crating, and collection and project management.
